

Team Name: sdmay21-24

Team Members: Rene Chavez, Jacob Gleason, Ian Kegley, Abdul-Salam Adedoja, Tyler Norris

Report Period: Aug 31st - Sept 20th

### **Summary of Progress in this Period**

We have begun several talks within our Senior Design Group along with our faculty advisor. We have come to grow and understand more about the project we are working on and continue to build our knowledge over Volt-VAR. We have also gained access to our PowerCyberTested environment where each of the team members has their own personal VM where they can connect to the environment and see wanted information.

---

### **Pending Issues**

An issue that our team is having is trying to get a time together that works for everyone In order to be able to work together on assignments and collaborate over for the project.

---

### **Plans for Upcoming Reporting Period**

We intend to review online tutorial classes in order to gain a better understanding over our project just to be better suited to work on our project. We also intend to come into a consensus on what frameworks we would like to use in our project. We are still trying to decide on what should be used for our backend framework along with our frontend framework.
