

Team Name: sdmay21-24

Team Members: Rene Chavez, Jacob Gleason, Ian Kegley, Abdul-Salam Adedoja, Tyler Norris

Report Period: Oct 19-Nov 1

Summary of Progress in this Period

- Created communication between frontend and backend of skeleton project
 - Created a docker container for a skeleton Django and React Project
-

Pending Issues

- The docker-compose fails when building the React image. Dockerfile for the React application will build on its own however
-

Plans for Upcoming Reporting Period

- Create a docker container for the Django and React project
 - Create an example machine learning algorithm that can for familiarity with Tensorflow and to create a base for implementing our project
-
